

SEARCH ENGINE OPTIMIZATION (SEO) PROPOSAL

Organic Search Scaling & Authority Optimization

PREPARED EXCLUSIVELY FOR

KDPP ENTERPRISE

Securing long-term organic visibility and inbound lead velocity.

Proposed by: HK Digiverse & IT Consultancy LLP

Confidential Commercial Document

1. Executive Summary & SEO Strategy

While standard web development builds structural search readiness, a dedicated Search Engine Optimization (SEO) strategy ensures long-term organic visibility, inbound lead velocity, and regional market authority. HK Digiverse & IT Consultancy LLP will deploy an advanced multi-platform SEO campaign mapping across KDPP's targeted commercial verticals to secure top-tier keyword rankings on organic search engine result pages (SERPs).

Strategic SEO Scope of Work

- **Technical SEO Audit & Hardening:** Resolving crawling and indexing errors, optimization of sitemaps, robots.txt, schema markup deployment, and core web vitals optimization.
- **Advanced Keyword & Competitor Intelligence:** Pinpointing high-intent B2B commercial search terms for logistics, warehousing, container trading, packaging, construction, and education.
- **On-Page Content Optimization:** Mapping and enhancing meta titles, meta descriptions, heading structures (H1-H6), internal linking architecture, and intent-focused body copy across the digital ecosystem.
- **Authority Link Building (Off-Page SEO):** Acquiring high-quality contextual backlinks, domain authority enhancement, and industry-specific directory citations to build trust indexes.
- **Local SEO Architecture:** Optimizing Google Business Profiles (GBP) and local maps listings for localized industry tracking and regional dominance.

Analysis, Reporting & Transparency

- Integration of Google Analytics 4 (GA4) and Google Search Console tracking.
- Monthly performance reports identifying visibility growth, organic traffic trends, keyword ranking position shifts, and clear lead conversion data.

2. Investment & Retainer Structure

Organic SEO is a compounding engine. To allow sufficient time for search engine indexing cycles and strategic keyword momentum, this service runs on an ongoing commitment model. To simplify KDPP Enterprise's ecosystem strategy, we have bundled the complete SEO optimization process for **ALL SIX WEBSITES** into a single, comprehensive monthly retainer.

SERVICE COMPONENT DESCRIPTION	BILLING FREQUENCY	INVESTMENT (INR)
Comprehensive SEO Ecosystem Retainer Covers technical audits, on-page optimization, content strategy, link building, and local map tracking for the entire digital network.	Monthly	Included
Multi-Site Ecosystem Scope Optimization covers KDPP Main, Warehouse, Container, Packaging, Construction, and Akhand Anand School.	Monthly	Included
Total Monthly Ecosystem SEO Cost	Monthly	₹ 30,000

★ ALL-WEBSITES INCLUSIVE GUARANTEE ★

The recurring amount of **₹30,000 per month** is an all-encompassing strategic retainer.

This guarantees comprehensive technical, on-page, and off-page Search Engine Optimization across ALL 6 of KDPP Enterprise's brand portals simultaneously. There are no per-site tracking fees or hidden charges; HK Digiverse manages organic scaling for the entire ecosystem under this single investment.
